- Team Foundation Server

EMPLOYMENT HISTORY

Software Developer   **Software Design LTD**   **October 2015 – Present**
- Development of a bespoke web application that integrates with Facebook, Instagram and Twitter APIs using technologies such as Node.js, React.js, MongoDB and RabbitMQ.
- Responsible for the development of a RESTful API for a SaaS product where I managed specification, tasks and implementation while working closely with senior developers and company directors.
- Developed and maintained a RESTful API for a custom Android application using Node.js, Babel, and Swagger.io
- Maintained version control on several production, test and demo servers for numerous clients.
- Liaised with project managers, designers and other key stakeholders on a daily basis to ensure that project tasks were completed on time and within budget.
- Participated in monthly in-house code reviews and code challenges.

Software Developer   **Quark Europe LTD**   **May 2015 – October 2015**
- Developed functionality to complement existing services using Java, JSP, XML and .Net C#
- Development of Web Applications using technologies such as HTML5, JavaScript, XML, XSL and CSS
- Ensure that all team project work is committed to Microsoft Team Foundation Server
- Working closely with the QA team to adhere to the Quality Assurance process
- Configuring existing Quark Products to meet customers' needs
- Interpreting and maintaining technical documentation

Store Manager   **Tesco Phone Shop**   **August 2011 – July 2014**
- Responsible for overall operation of a busy retail store
- Set, communicate, monitor and achieve the highest standards of customer care
- Accountable for keeping up to date with new and emerging technologies

Senior Retail Consultant   **O2 Retail**   **March 2010 – August 2011**
- Explaining key technologies and functionality to customers
- Identifying issues in store KPIs and deploying solutions to improve performance with regard to targets
- Management of EPOS- dealing with transactions, ordering, customer accounts

Architectural Draftsman   **Philip Bennett Consulting Engineers**   **Nov 2008 – April 2009**
- Prepared construction details and construction drawings as well as planning permission documentation for submission to the local authorities
- Solely responsible for the design of one off dwelling houses and industrial developments
- Liaised with company director regarding current and upcoming projects
- Conducted site visits for the purpose of pre-planning and post-construction projects
